

THE DIGITAL FOUNDATION FOR THE NEW SPEED OF BUSINESS

Excel in the new digital age with abundant enterprise-grade internet and add-on managed services at unbeatable low prices.

The world has changed. Everything is online and in the cloud. So getting the internet connection right for your business is critical. Don't let networking limitations constrain your success and throttle employee productivity. Be a leader in tomorrow's markets today with a suite of connectivity services that is designed for the new speed of doing business.

WILINE INTERNET

Customize the bandwidth that is right for your business, choosing anything between 50 Mbps and 10 Gbps. All speeds are dedicated and symmetrical and scaling up as you grow is as easy as a phone call. WiLine's prices are affordable, offering unbeatable savings to your bottom line.

WiLine's SLA-guaranteed business internet service is delivered over a private, mesh network with redundancy and proactive monitoring. This advanced software defined network (SDN) enables WiLine to offer installs in days not weeks and deliver superior speed, reliability, and performance unlike any other provider. Support is available 24/7 so WiLine is always there to address your needs.

Guaranteed SLAs

- 100% Bandwidth
- 99.99% Availability
- < 10 ms Latency
- < 2 ms Jitter
- < 0.001% Packet Loss

WILINE ADVANTAGES

HIGH SPEED

AFFORDABLE

SYMMETRICAL

SECURE

RELIABLE

FAST INSTALL

WILINE SD-WAN

Ensure uptime for any cloud-based applications across all sites and users with the WiLine SD-WAN solution. Unlike policy-based solutions, WiLine SD-WAN auto-detects application needs and network conditions, intelligently adapting traffic in real time. Realize resilient connectivity for all your cloud applications and improve visibility into your internet usage while simplifying your network. An affordable, monthly rate keeps your costs low and predictable.

WILINE MANAGED WI-FI

Empower your business with the freedom to roam with WiLine's enterprise-grade access points. Private and guest Wi-Fi is secured with password updates. Pick the deployment option that works best for your business, choosing between a wireless version that uses a mesh deployment model or a wired version that is connected to the LAN with PoE. Either option is fully managed by WiLine and includes administration, monitoring, and reporting. One affordable, monthly rate per access point keeps your costs low and predictable.

WILINE CLOUD VOICE SERVICE

Stay in touch for less while enjoying all the communication features you have come to expect in your business phone system and more. WiLine's cloud voice service includes unlimited local/long distance calling plus low international rates. Arm your employees with the flexibility to take and make calls on their desk phone, computer, or a mobile device. You can keep your existing phone numbers or get new numbers from WiLine.

WiLine's comprehensive feature set covers all use cases including your main business number, individual employees, contact center agents, and specialty locations like conference rooms, lobbies, and warehouses. An easy to use online portal gives you the power to manage all the feature-rich settings available. One affordable, monthly rate per user keeps your costs low and predictable.
